About Us

Gulf Commercial International F.Z.E is a leader in providing a wide range of high-quality products and services across various sectors. Located in the Ajman Free Zone, United Arab Emirates, we operate under license number 26423. Our company has built a reputation as a reliable global business partner, known for our technical and artistic capabilities to meet customer requirements in industries such as oil and gas, chemicals, trade and investment, and logistics.

Message From The CEO

Welcome,

At Gulf Commercial International, we continually strive for leadership and innovation in everything we do. Since our inception, we have taken on the responsibility to excel in our industry, with an unwavering commitment to the highest levels of quality and reliability in delivering our products and services. This responsibility is not only towards our clients and partners but also towards our community and the environment.

Our bold vision has resulted in significant achievements in various industrial fields, from oil and gas to electronics and building materials. We take pride in being part of transformative projects that improve people's lives and enhance economies.

Our strategy is based on continuous innovation and investment in technology and talent development. We believe that sustainable growth comes from the ability to adapt and evolve in line with market challenges and opportunities. In this context, we adopt flexible business practices that enable us to effectively respond to changing market demands and achieve the best results.

I would like to express my gratitude to every member of our global team who works tirelessly to ensure that we remain at the forefront of the industries we operate in. Together, we are building a future that will see more innovations and accomplishments.

Thank you for your continued support and trust in Gulf Commercial International. We value this trust and are committed to always enhancing it and exceeding your expectations.

Best regards,

Mohamed Elnagi
CEO

Our Company

Our Mission

To consistently exceed expectations with a commitment to excellence, aiming to empower partners through innovative solutions and exceptional advice. Our operations are built on a foundation of respect, providing unparalleled value to our partners and customers.

Our Vision

With a forward-looking perspective, we strive to seize every possible opportunity to contribute to economic and commercial development and to be leaders in our fields locally, regionally, and globally.

Our Strategy

Our strategy is built on minimizing risks and developing the company due to the diversity of its business and strength in the region and around the world. This is thanks to a team of dedicated professionals with scientific, commercial, and technical experience. The company has experienced rapid growth in recent years across various sectors and we will continue to focus on development, benefiting from our extensive experience across our diverse sectors and fields.

Values

Integrity: Commitment to the highest standards of honesty and transparency in all our dealings.
Excellence: Striving for excellence in every aspect of our work, from product quality to customer service.
Innovation: Embracing innovation and creativity to drive growth and efficiency.
Sustainability: Commitment to sustainable practices that protect the environment and benefit the communities we serve.
Collaboration: Enhancing strong partnerships and teamwork to achieve shared goals.

Core Operations

Oil and Gas Field and Infrastructure Development

We specialize in developing oil and gas fields and related infrastructure. Our capabilities include pipeline construction, refinery construction, storage tank building, and maintenance of large oil industry facilities.

Early Production Facilities and Pipeline Provision

We provide pipes of all types and focus on Early Production Facility (EPF) technologies to enhance the initial stages of oil production.

Chemical Products and Additives Manufacturing and Marketing

Our operations include the manufacturing and marketing of chemical products and oil additives essential for oil well operations.

Trade and Logistics Services

We engage in the trade of oil derivatives and gas cylinders and manage a comprehensive range of logistics services, including oil transportation and commercial ship operations.

Expertise and Partnerships

Our extensive experience spans local and international markets, supported by strong relationships in all operational fields. We have established strategic partnerships with some of the world's leading companies specialized in drilling equipment and oil field development mechanisms.

Company Activities and Business Scope

Refinery Construction and Maintenance

Specialized in constructing and maintaining new refineries, focusing on advanced technology to enhance oil refining processes. Services include facility upgrades to improve efficiency and reduce environmental impact.

Construction and maintenance of oil and gas storage tanks

Specialized in designing and constructing oil storage tanks to ensure safe and efficient storage of petroleum products, with certified safety systems.

Construction and maintenance of oil pipelines

Implementing projects for extending and maintaining pipelines for transporting oil and petroleum products, focusing on operational efficiency and safety.

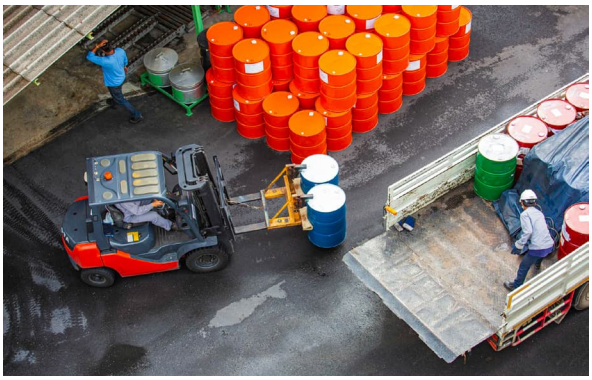

Maintenance and Rehabilitation of Petroleum and Chemical Infrastructure

Providing comprehensive maintenance and rehabilitation services for petroleum and chemical facilities to ensure continuous operation and compliance with environmental and health standards.

Production and Marketing of Industrial Oil Chemicals

Engaging in the production and distribution of specialized chemicals for the oil industry, including quality enhancers, inhibitors, and solvents, with an emphasis on quality and effectiveness.

Oil Drilling Equipment and Oil and Gas Field Development

Our specialized engineers work efficiently in the field of oil and gas field development with advanced high technology, focusing on increasing oil and gas production according to the highest world technology standards. Providing a wide range of oil drilling equipment, along with technical support and maintenance services to ensure the highest standards of performance and safety.

Trade of Domestic Gas Cylinders and Related Products

Engaging in the production and trade of domestic gas cylinders, focusing on providing safe and reliable products for the local and regional market.

Automotive Trade, Spare Parts, and Oils

Leading in providing automobiles, spare parts, and oils, along with post-sale services and maintenance.

Food Commodities Trade

Providing a variety of food commodities, focusing on quality and diversity to meet market needs.

Building Materials Trade

Offering a wide range of basic and specialized building materials to support construction projects of all sizes.

Electronics Trade

Including the sale and distribution of modern electronic devices, focusing on providing the latest technologies and efficient solutions.

Cosmetics Trade

The cosmetics section offers you a wide range of the finest and most luxurious beauty and skincare products, in addition to the latest trends in everything related to beauty and elegance.
